

## Stars

1. Write 5 sentences about things you have learnt about stars and tell the class.

- A) Stars are very distant.
- B) Stars are very hot.
- C) Stars are different sizes and have various colours
- D) Stars are spheres
- E) Stars shine

2. Copy the diagrams of the plough and the Orion.

The plough	Orion
 <p>A diagram of the Plough constellation stars. The stars are connected by lines to form a shape resembling a plough. The stars are labeled with Greek letters and names: <math>\eta</math> Alkaid, <math>\zeta</math> Mizar, <math>\epsilon</math> Alioth, <math>\delta</math> Megrez, <math>\gamma</math> Phad, <math>\alpha</math> Dubhe, and <math>\beta</math> Merak.</p>	 <p>A photograph of the Orion constellation in a starry night sky. The constellation is outlined with white lines, showing its characteristic shape. The stars are bright and vary in size and color.</p>
