

# Perimeter and Area

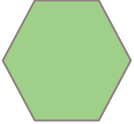

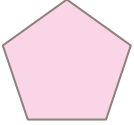

You will need:

- A geoboard.
- A piece of string of about 40 cm.
- Pencil and ruler.

## Directions:

- Stretch a string around four points in a geoboard and tie both ends of the string to form a loop.
- Calculate the perimeter and the area of the shape.
- Fill in the chart.
- Form and calculate all other shapes and observe what happens.

		Perimeter	Area
	Square		
	Rectangle		
	Rhombus		
	Triangle		
	Hexagon		
	Pentagon
