Answers can vary, so you need to talk about it with children. It's a very easy concept and they already know it, so you can speak in English all the time. When they play, they must manage to express themselves only in English. It's a very easy self explained activity which represents a good opportunity to encourage children to left Catalan aside for a while.

Page 2: Numeracy vocabulary.

Children already know about these concepts, but it is a nice opportunity for most of them to revise a bit. It's easy to do it en English, but allow children to ask or answer questions in Catalan because here we are dealing with English and with concepts. Use as many graphic and numerical examples as possible to make the concept clear using only English.

Answer these questions:

1	2	3	4	5	6	7
f	d	b	g	a	c	e
