STATES OF MATTER

INTRODUCTION

Activity 1

Classify these things into solids, liquids and gases.

SNOW	MILK	ORANGE JUICE	WATER	OXYGEN	APPLE JUICE
WATER VAPOUR	A TABLE	ICE	A PENCIL	HYDROGEN	CARBON DIOXIDE

Solids	Liquids	Gases

Activity 1

- (Material or object) is a solid/liquid/gas.

Activity 2

Remember!

Everything is made of matter, as for example a table, a star, a plant, a person, a cat...

Matter is made of atoms.

On our planet, the Earth, the most common states of matter are solids, liquids and gases and a less common state of matter is plasma.
