Mini Saga

A mini saga is a complete story written in only 50 words. The one below hasn't been finished – it's 65 words long. Can you get rid of 15 words that aren't absolutely necessary for the story?

Snow White was working freelance as the dwarves' new publicist. She took some stylised photos of their best mining work and sent them away to be professionally developed. "When will we get them back?" asked the excited dwarves, impatiently. "They didn't give me an exact date to be honest," said Snow White dreamily, "But I know that some day soon my final prints will come."

Procedure

- 1 If possible, record the listening text below on to a tape first.

As you go into the zoo, the first thing you see are the seals in the round cage in front of you. The monkeys are in the cage on your right and the hippos are on the left, in the cage with the water pool. Next to the monkeys are the giraffes and next to the hippos are the elephants. Walk past the elephants to the back of the zoo. In the left-hand corner are the tigers. The lions are in the middle cage and the bears are on the right opposite the penguins. Turn right and walk past the seals, between the bears and the penguins. Opposite you are the parrots on the left, next to the Exit, and the ostriches are on the right.
