

Over the sad Star  
The forest is lonely  
My broken heart is running  
Screaming in the dark  
Under the calm sea  
The desert is frightened  
Through the distance I'm travelling  
Crying in the madness

The moon is crying  
My love is dead

For her lover  
My lover is happy

The sun is very far  
My heart is broken

Her love is impossible  
My life is finished
