

Sant Pere Màrtir

To prepare the departure trip to Sant Pere Martir we made a goniometro of wood with an arrow to indicate the angles.

The day 23rd of February we rose going upto Sant Pere Martir. After arriving tired and without desire of making anything got down to business ourselves. We mount a goniometro with Marta's feet, to measure the angles from the north to the Putxet, etc.

Also we carred woods with a stick to see the shades, in different hours. The Marta explained to us by where is put and left the sun and when the shades are shorter or longer.

From the mountain we would see all Barcelona (The truth is that the conferences were quite well).

This excursion was quite short and very tiring, but it was worth the trouble to rise and to see those conferences so " chulas ".

OLYMPIC PORT:

On Monday 22 of May, the students of 4º A and B will make a trip to the Olympic Port that will almost last the whole day. The activities that will be carried out will be: initiation to the candle, and to the sailing to the sea. This activity is directed to the students that have never navigated and they ignore the world of the candle.

The price will be of 1.500 pesetas and it will be used the meter like transport.

The equipment that we will take will be the following one: sport clothes, you bounce of water, kangaroo, cap and cream protector. This activity is obligatory and very educational.

Manuel Castaño.

4t. ESO. "A"

A DESCRIPTION

I met him 12 years ago. I met him in the primary school. When I was a child I played with him.

He is 15 years old and he's a student. He likes sleeping, playing with his computer and sailing in internet.

He has black hair, sideburns and many freckles. He's 1'75 meters tall .

I get on well with him because we have the same ideology, and likes the same things as me.

What I don't like about him is the way he behaves.

(Moises)

Pablo Agudo Espada

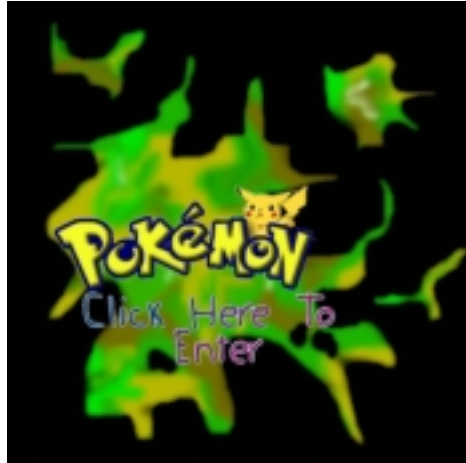

I am of yellow color. I am from Brazil. I live in New York.
I am sad because I am not with my family in Brazil

Your story

You're an eleven year old boy who lives with his mother in *Pallet Village*. Your rival lives in the next house of yours. Your rival and you used to play together when you were younger but after this he became petty individual. He considers you as his rival because you're the same age and tall like him. When you heard that teacher Oak expert you got very nervous very curious boy. After *Paleta Village* looking for a voice:

"Hey! Not to come Oak. "There are said. "Maybe they have trained there and fight

the same age and tall like heard that teacher Oak expert you got very nervous very curious boy. After *Paleta Village* looking for a voice:

in grass!", it was teacher wild Pokemon living there", can be dangerous. If you Pokemon you'll can come against them."

So teacher Oak took you to his laboratory where your rival were waiting for you. Teacher Oak had invited him because he was his grandson. Then teacher Oak told you:

"There are three Pokemon here so chose what you want. Now that you have a Pokemon **el resto es cosa tuya...**"

(information take out from POKEMON TRAINER'S GUIDE of Nintendo)

Everybody has heard something about those little "bugs" called Pokemon and if not, ask to any kid you find.

All started with a TV serie in Japan. In one of it chapters the television set's screen flickering making all kids who were watching TV at that moment got and epilepsy attack and they must went into hospital. "Thanks" to this incident the serie became very successful betwen children and kids. The serie prepared the way to the future video game with the same name. There are many versions: the Blue, the Red, the Yellow, the Golden, the Silver, the Pokemon Snap, the Pokemon Stadium, the Pokemon Pimball, the Pokemon Monster... for Game Boy by Nintendo.

Now it seems that kids can't life without those Pokemon, they are everywhere: wallpapers in their bedrooms, stickers in their notebooks and folders, candies, video games, TV, original soundtracks, keyrings, internet, toys, t-shirts, fancy dresses. Even in the cinema in a next future with it's own original soudtrack made by differents groups and singers, one of this songs is "Don't say you love me" by M2M, played at this moment in radio stations.

Letter to the director,

Why can't we only go to school in the mornings?

Most people, and the most important, the students, think that it would be better if we only came to school in the mornings. The reason for thinking this way, is that we lose a lot of time going to the school in the afternoon and so we don't have much time to do our homework and enjoy doing other things like listening to music or going out with friends, etc. Well, in conclusion, it would be better if we only came to school in the morning.

Cristina Rosa 4t d'ESO B

Letter to the director,

We would like to make a complaint about the fact that many classrooms are dirty, because the students don't respect their classrooms and as the assistants don't clean them every day the classrooms look really dirty.

We think that it is a very important problem since you don't feel like working in class-rooms in such a mess. Teachers say that the problem is that students don't care about the tidiness of the classroom, while students say that the problem is that the assistants don't clean them well enough and at the same time the assistants say nothing about it.

The problem is not solved yet and consequently the classrooms are still dirty. The solution is very far away and not very clear. What can we do about it?

Pablo Agudo Espada & Moisés Parra 4t d'ESO A

JOURNEY TO TENERIFE

In the month of March the High School Joanot Martorell has organized a journey at the end of the 4th year of ESO. The marked destination is Tenerife, one of the most beautiful of the Canary Islands, located in the Atlantic Ocean. The exit will be in the days 12-13. It will have a reasonable price: 48.000 ptas (about 288,48 euros). In this week, the students will be able to enjoy a magnificent hotel with pool, golf, tennis and many other things to have a good journey.

Manuel Castaño 4rt ESO B

My friend

I met him in the Institute in the classroom of 4^a E.S.O because he sits next to me in English. When I was small I played with him. He is 16 years old and he was born in December. He likes playing basketball because he plays for a team of basketball. His dream is playing for the NBA.

He eats many vegetables and drinks milk because it is very important for playing sport.

He is very sociable and lively so he is my friend.

Some players of F.C. Barcelona

Puyol:

another option is putting Bogarde in stage of Reiziger and this natural position, right lateral, in stage of Puyol. Puyol didn't have a good performance.

Abelardo:

If Michael Reiziger continues in the middle of the fullback, the Asturian central will exit of the team, as well happened after the half-time of the match in front of Alavés.

Zenden:

The best match of Bogarde was in the left lateral. If Zenden occupies that position. He will leave line-up. If Cocu will leave his position in middle of the field.

ESO: IS IT THE BEST EDUCATION ?

Nowadays, children between 12 and 16 years, study in the new system, the **ESO**. It is a big change if we compare with the old plane of Education.

But in my opinion, it is not the best way to teach the students:

- ? On the one hand, it is not helpful for students to study, and it happens that they do not want to learn.
- ? On the other hand, with the former reform, with 14 years old, you could leave school and you had a degree, but, with the **ESO**, you are "force" for the study, and you receive a degree with the same level that the graduate.

In conclusion: I think the **ESO**, is a plane to get the students in the school for a lot of time, but **do you think a person who does not want to study, can he change with the ESO?**

The answer is clear. Although, the damage is made, but we can try that the authors of this reform think in its consequences and they wonder themselves:

IS THE ESO THE BEST EDUCATION?

THE INTERNET CARDS

In case you are a user of Internet, you can send free funny cards to your friends, family, boyfriend, girlfriend, etc.

There are a lot of pages of cards and nearly all of them are free.

There are many types of cards, funny, of love, for congratulations, of friendship, of bad feelings, of sports, etc.

There are animated cards. And you can send the cards with music, a poem, a stamp, in colour and you can write a message. Besides, he can get there quickly or in the year, in the month, in the day, in the hour that you will.

A lot of people send cards through Internet, because it is free, funny and the card arrives immediately.

I am a user of this service.

MY EARLIEST YEARS

When I was a child, I lived in Cáceres. I came to Barcelona, when I was 2 years old. I don't remember anything of this town. At 4 I started school. I remember my mother at the door and me crying every day while my friends came into the classroom. The next month I didn't cry all mornings. I had my first friends at school and today they are my best friends. I finished the primary school at 11 and in the moment I lost many friends because we go to different high schools. My parents enrolled me in the high school Joanot Martorell and I study in this school today and one more year. The first year here was very difficult, but my family and my friends helped me in the worst moments. One year later I was rent a flat in Pineda de Mar and there I knew many friends. In Pineda I drunk a lot of alcohol and I had a nice time.

The Simpsons

The Simpsons is a T.V. program created in 1991 by Matt Groening. It deals about a typical american family and the things that they do. The characters are: Hommer (the "father"), Bart (the son), Marge (the mother), Lisa (the oldest daughter) and Maggy (the little daughter). There are also much more characters in the program like Sir Burns, Abu, Moe...

Today it's watched in more than 30 countries with a fantastic success. There are also comics about these odd family and are very funny with as the program, that it's really followed by us.

This year, the program will have been on T.V. for 10 years!

It has a lot merchandising, we can found clock's, wear, shoes, games, glasses... about the Simpsons. It has more success than Michael Jackson in a nursery.hoho (read in english).

With this great joke we finish the article about the Simpsons.

A CHRISTMAS POEM

People from all over the world in Christmas

Go to the houses of their families
It is a special night, all is calm and all is bright
They sing Christmas songs together
Around the Christmas tree
And everybody expects the day that Santa comes.

These people don't know each other
But all of them have something in common,
They have a happy time,
Time of pleasure and happiness
Time of staying together
The best time of the year.

A STORY

It's Monday. In a school a teacher set an exam for Friday and after the school two friends talked to each other.

- Hey, shall we all go to the cinema this evening? And also the other days we can do something.**
- Oh, no! I must study for the exam. I don't want to study the last day.**
- You are boring. I will study on Thursday evening. I will have fun while you stay at your home.**

It was the exam, the "funny" student realized that he had to study more and before Thursday.

MY FAVOURITE SEASON

My favourite season is summer, because there isn't school!!

Also I like summer because I go on holidays to my parents' town and I visit my grand-mother, my aunt, my uncles and my friends. There I go to the swimminp-pool, I go out, etc. But also I stay in Barcelone and here I go to the beach, I go to a theme park, I go out with my friends and with my parents.

In summer I don't have to do homework, to read a book, to wake up early in the mornings,...

Also in summer the weather is fine and I don't wear much clothes.

The only that I hate is that I don't have a computer so I can't write e-mails to my friends and I can't talk with other people.

BIG BROTHER

"You should know this is a lie". This is Carlos' s sentence, the most polemic participant of Big Brother from Spain. And he's right.

Now we are going to tell you the reasons for saying this:

The Big Brother organisation told the participants of this year that they had to do more funny things, to be more active...

Censure: the program is characterised for the censure. When there are hot scenes and conversations, the camera goes to another place. And when the situation all over the house is hard the camera goes to the famous aquarium.

While the big brother organisation said to them that they should be more active the camera was shooting the aquarium during 10 minutes.

But sometimes we can also see nice images of the garden and the swimming pool.

In the summaries, the organisation select the images and sometimes manipulate these images for the participants seem different.

In conclusion, Big Brother does not show real things and people pay for watching these shows.

EMINEM

Eminem is a rapper but his real name is Marshall Mathers III.

He was born in Kansas City on the 17th October in 1974.

He lived his childhood between Kansas and Detroit. He went to the Lincoln High in Warren.

He's divorced of Kim and they have a daughter, Hailie Jade, she's 5 years old.

Actually, Kim and Eminem will be together again.

His favourite artists are Tupac, Redman, Beastie Boys....

He won 2 Grammy and a Mtv award on 1999 and now he's nominated on the Grammys in 4 categories.

His discography is: "infinite" in 1995, "slim shady ep" in 1997, "Slim shady lp" in 1999 and "The Marshall Mathers Lp" in 2000.

He's having a great success with his last album.

The first single of the last album was "the real slim shady", the second single was "Stan" and the last single in USA is "the way I am".

He's a perfectionist and a sarcastic person. He's a polemic man for the letters of the songs that he writes. They're strong and they say obscene words.

RULES FOR WATCHING TELEVISION !!!

- 1.- It is essential to have a good and big television with remote control.
- 2.-Near the television it is necessary to have a big, comfortable sofa, where you can lie.
- 3.-You must think that you are the king of your home because you have the remote control. Who has the remote control has the power.
- 4.-You must have a little table near the sofa to put the food on.
- 5.-When you had all these things, you should go to the kitchen to prepare the food for your television session.
- 6.-The necessary products for a good session are: coke or fanta, chips like lay's or ruffles, "panchitos", peanuts, olives... but if you want a hot food you can phone a pizza or you can cook creps, gofres, etc.
- 7.- Take the food to the table.
- 8.-Now you are prepared for the amusement.
- 9.- The most important rule to a tv-addict is when there is publicity on you should zapping.
- 10.- To be a tv-addict you must watch tv more than 7 hours in a day.

We speak about the carnival.

The day of the masks is called around the world as Carnival. The parties of carnival correspond to the “ saturnalias” of the old Rom. During all the Middle Age, Rom continued being the centre of the carnivals. After Rom went famous for his carnivals, the most important cities were Benicia , Turin, Milan ,Florence ,Naples. Among them all Florence was the most free city of Italy. In France the most important cities were Proven ,Burgonet, and Britain. Earlier the parties on the street hided in England, but only the particular parties of masks existed. In Germany and Swede was where the parties of masks started and only for making pieces of theatre. The most important carnivals of the contemporary Germany happened in Colona.

The Spanish’s carnivals are famous because they are the most noisy in the world. The carnivals were prohibited by Felipe IV but after they were authorized by Carlos III. During his reign were introduced the masks’ dances. During the XIX century Fernando XVII forbidden the carnivals, too. But Maria Cristina authorized it at 1939.

We can find the best carnival of the world in Rio de Janeiro. It is situated in South America (Brazil). The carnival consists on disguising yourself about a up to date theme . All the people who participate in this party must usually go disguised around the streets of a village for a long time. All the people are happy for this date but there are people who use the carnival for making a crime. They make these crimes because they are disguised and it is difficult to recognise them

WRITING A BOOK REVIEW

Title:	Dr. Jeckyll and Mr. Hyde
Author:	Robert Louis Stevenson
Type:	It's a spy thriller and horror story
Subject:	It is a story of good versus evil, we know the well-intentioned, wealthy physician Dr. Jeckyll, who through the use of drugs, unleashes the dark side of this nature, the hideous Mr. Hyde.
Characters:	<p>Dr. Jeckyll is an ambitious the physician who discovers a chemical mixture that will separate the evil part of himself into a different body, Mr Hyde. Mr. Hyde represents the evil part that everybody has.</p> <p>Mr. Joh Utterson is a lawyer in London. He is cold, distant, quiet; he never smiles.</p> <p>Mr. Richard Enfields is a lawyer too and Utterson's friend. He has said Mr. Hyde.</p>
Setting:	The story takes place in London in the end of XIX century.
Ideas:	Stevenson talks about double human identity, separated for good and evil. It concerns the way in which an individual is made up of contrary emotions and desires: some good and some evil.
Time:	It is written in simple past time.
Events:	Dr. Jeckyll is an ambitious doctor who has created a drug that separates his good and evil natures -purifying the doctor himself but with the ghastly side effect of periods spent as the monstrous Hyde. A brutal murder follows. The dead man is one of Utterson's clients, Sir Danvers Carew. The murder weapon was, unbelievably, a cane Utterson had given to Jeckyll. As such, the lawyer enters in the strange world of Jeckyll. Utterson investigates with Poole, Jeckyll's butler, the seeming contradictions in the doctor's actions and his increasingly hermit-like existence in his laboratory. At the end, they discover that Mr. Hyde and Dr. Jeckyll is the same person in the Henry Jeckyll's explanation.
Comments:	To read this book it was a little difficult for me because the vocabulary is quite complicated.
Questions:	<p>How would you describe the story?</p> <p>I will describe the story like an exciting story.</p> <p>Did you like it?</p> <p>I liked it very much.</p> <p>What did you like about it?</p> <p>I liked the mystery that there is all through the book.</p> <p>How did you feel about it?</p> <p>I felt intrigued because nobody knows the truth until the end, in Henry Jeckyll's explanation.</p>

ARTICLE

I like very much playing football with my friends. This is a good sport to play, but is a capitalist practice in professional level. I think that practice is an idea of the government to make people fall apart all the problems of this society.

I also like watching some programs of TV, but only 3 or 4, for example South Park, 'la cosa nostra', "the Simpson's" and futurama.

I read some magazines like as 'el jueves'. It's a magazine of humour, it's very good, and has a very interesting ideology. If you can, buy that.

Also, I play video games with my friends, we play with my play station or our PC's. We play football games, fight games and sometimes cars simulators.

Usually, I and my best friends go out to diskos, to drink, to smoke...o simply go to one park and stay here and talk, eat sweets and chips and have a nice time..

These are aprox. My favourites things or my hobbies.

South park.

PANTOCRATOR OF SANT CLIMENT DE TAÜLL

One of the masterpieces of the MNAC (Museu Nacional d'Art de Catalunya, (Barcelona) is this Romanesque mural painting showing a splendid, from the absis of a little church of Boí valley (Humanity Trust by UNESCO for its set of churches), in the Catalan

The subject and the style have a strong influence of the Christian symbolic art. The hieratism of the forms and the bright blue color give a hard stroke to the espectador . You can feel God's look, with His big eyes and His right hand blessing and His left hand over the Holy Bible with a sentence in Latin "Ego sum lux mundi"("I am the light of the world") that will justice men and women at The masterpiece is full of other tricks, such as the fact that, over His shoulders, we can see the alfa and the omega, the first and last letter of the Greek alphabet. God is the start and the end of all things.

Romanesque style has a great amount of other important pieces in, making this one of the most peculiar of its culture at the beginnig of its life as one of the outstanding kingdoms of the Middle Ages in Western Europe: the of Barcelona.

.Fill in the blanks with the following words:

12th century	Counts	Bizantine	symbolic	The End of the Days
"Pantocrator"	terrible	Catalonia	Romanesque	Pyrenees
