# Daycare

Here in sweden you can choose if you want to have daycare. you start daycare when you're about one year old till you're five years old.

In daycare the kids can play with other kids meanwhile the parents are at work.

But you don't have to go in daycare becuse it cost 100 euro a month.

$$4/2 - + - 1 \times 1$$

Preschool!

When your six yers old you can start preschool. But you dont have to.

Preschool is almost like daycare, but it's getting more serious. Then you start to learn how to read, write and count. But it's also alot of playtime.

$$+ - 3+4 \quad 8-4 = -$$

$$6-3 \quad + - 5 \times 5 = +$$
