

Summary table 1

Student name \_\_\_\_\_

Questions	Answers
Name of the numeration system	
Who Where When	
Symbols used and their value	
Is the system <b>additional</b> (the value of the symbol does not depend on its position in the number) or <b>positional</b> (the value of the symbol does depend on its position in the number)	
Write your <b>own two examples</b> of this system and the equivalent value in our decimal system	
If the system is still used nowadays write your own example
