EDINBURGH

You'll be taken on a tour of Edinburgh by the hand of one of its most well known and knowledgeable ghosts. He'll give you information about the city, its architecture and some of its most eminent and notorious dwellers from the past.

The city of Edinburgh is divided into two parts: The Old Town and The New Town.

We'd like you to watch the video and note down as many references as possible to the two parts of the city.

We'd like you to refer to the problems of the old town, the origins of the new, people involved in the development of the new town and the problems they had to face.
