

ACTIVITAT DE COMPRENSIÓ ORAL - DOCUMENTALS

1. Get in groups of three or four and discuss the questions below:
 - Are you fond of watching TV documentaries?
 - What are the most popular documentaries shown on TV at the moment?
 - What topics do you like documentaries to deal with?

2. You are going to watch seven different extracts of documentaries. The first time you watch the video, classify them according to the topic they deal with. Here is a list to help you do your task: historical, nature, environment, industry and technology, science, tourism, health and medicine, politics, religion, war, wild life... Fill in the column under the word topic.

- Watch the video a second time and locate the events in the city or country they take place. Fill in the column provided.

- Watch the video again. Summarize in a few words what the different documentaries are about. Write your comments in the third column.

If you are interested in doing some extra listening practice, come to the self access centre. You'll find a lot of material available. This time you should try to listen for more specific information. Your teacher or the advisor at the **CAM** will help you choose the activities.
