

ACTIVITAT DE COMPRENSIÓ ORAL - NOTÍCIES

You are going to watch three news stories on natural disasters. The aim of the activity is that you should notice that the information about a particular theme or topic, no matter how diverse, tends to be arranged according to a scheme.

- On the first viewing, answer the three questions below for each of the stories:

	News story 1	News story 2	News story 3
What has happened?			
When has happened?			
Where has happened?			

- On viewing the second time, try to identify the news format that is common to the three items of news. Put a tick in the appropriate column.

news stories ¹²³	1	2	3
- measures taken to search for victims			
- measures taken to help survivors			
- aftermath of the disaster			
- help line for people to enquire after relatives			
- help line pledging financial support for the victims			
- interviews with experts, survivors and rescue-workers.			

- Make notes of any aspects that are common to at least two of the news items and that have not been included in the list provided. Compare your information with that of your partner.
