## ACTIVITIES:

- Song *This is the way*. Children will work in pairs. Each pair will have a set of sentences that belong to the song. While they listen to the song, they will have to order the sentences. Once they're done, they will check the answer. After checking it, everybody will sing and act the song. (30').

- Powerpoint *Actions*. With the powerpoint children will learn some actions. As we go over all of them, children have to think about the main part of the body involved in this action. When we finish with all the actions, we go over it again, and each time we see a slide, children have to do the action. (20')

- Touch and act. The teacher says a part of the body and children touch it, afterwards the teacher says an action we can do with this part, and children do it. (10')
