

Creem i compartim coneixement amb les eines de la Web 2.0 aplicades a l'acció educativa

Creació d'un bloc a Blogger: Podcast

Josep Cañas

Creació d'un bloc amb Blogger: Podcast

Veiem com podem crear els nostres propis Podcast i com els integrarem al bloc que estem elaborant. Hi ha molts aplicatius que faciliten la realització d'un podcast. Per començar a treballar amb aquest nou recurs accedirem a PodOmatic.

Accediu a l'adreça <http://www.podomatic.com/>.

The screenshot shows the Podomatic website homepage. At the top, the logo "podomatic" is followed by the tagline "Create, Find, Share Podcasts!". Navigation links include "Sign Up", "Log In", "Forums", and "Help". A search bar is located on the right. Below the navigation bar are tabs for "Home", "Podcasts", "Community", and "Create a Podcast". The main content area is divided into several sections: "Featured" with four podcast thumbnails (Tileradi, djchrisboogie, New Jewish Wake..., Confessions of a southern boy); "Featured Podcasts" with a grid of six more podcasts (Tom McCormack, DJ Shane V's, Frank's podcast, The EARCANDY ARC..., DJ Travolta's po..., EXCEPTER); "Newest Members" listing daniel hawe and James Pearson; and "Members With Most Friends". A large promotional banner on the right side offers "Go PRO, get two months free!" for a limited time.

Ara sí que podem enfrontar-nos al nostre primer podcast. Feu clic sobre **My Podcast** i ompliu les dades identificatives del que l'aplicatiu anomena "episode".

The screenshot shows the Podomatic website interface. At the top, the logo "podomatic" is followed by the tagline "Create, Find, Share Podcasts!". Navigation links include "Welcome, pepcanas", "Mail", "My Account", "Log Out", "Forums", and "Help". A search bar is present. Below the navigation bar, there are tabs for "Home", "Podcasts", "Community", and "My Podcast". Under "My Podcast", there are links for "My Podcast Page", "Post an Episode", "Statistics", "Preferences", "Design", "My Media", and "Tips". Further down, there are links for "Get the Word Out", "Embedded Player & Badge", "Manage Address Book", and "Directories".

Now post your first episode!

També podem activar l'opció del menú **My Podcast | Get the Word Out**. Veureu com l'aplicatiu ens informa que la càrrega de l'arxiu ha estat correcta i a més a més us envia un missatge de confirmació al vostre correu electrònic:

Episode Converting to Appropriate Format

We'll notify when the conversion is finished

To make sure our notification arrives in your Inbox, please make sure that **no-reply@podomatic.com** is in your address book.

Why are we converting your episode?

If your file format is mp3, we're resampling your mp3 so that it can play in flash players used by Odeo.com, Podcast.com, and others. If you record your mp3 in a multiple of 11.025 kHz (22.050kHz, 33.075kHz, 44.1kHz), resampling will not be necessary.

All audio formats that are not mp3 require conversion for players that are only able to play mp3s. Don't worry! If it is iTunes-compatible--m4a for example--we have the correct format for iPods and iTunes so your extended podcast can be as extended as possible.

Video formats require conversion in all cases to be played back in our embedded players. We keep the original for iTunes and iPods.

If you're worried about storage, we only account for the original. The rest is on us!

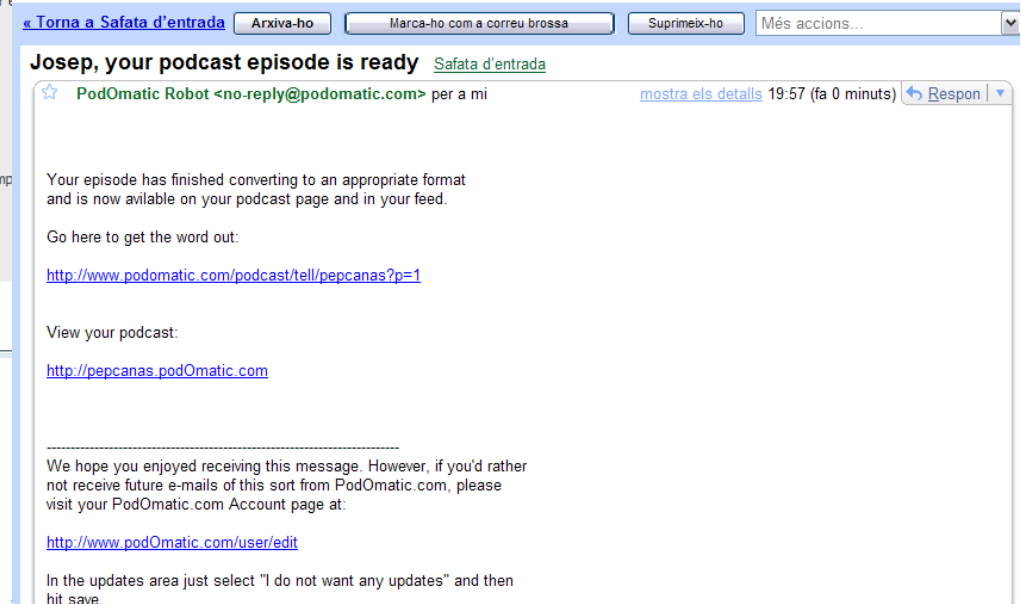

Why is my episode "hidden"?

While the media is being converted, the episode is marked "hidden". This is done automatically, and the flag gets unset after the conversion completes.

Conversion typically takes no more than 30 minutes; if it takes longer, contact [care at podomatic.com](mailto:care@podomatic.com).

While you're waiting: [Why not listen to some podcasts?](#)

Fent clic sobre l'adreça de l'entrada la podem visualitzar a l'aplicatiu. Observeu que tenim a la bostra disposició el codi per afegir el reproductor amb el podcast al nostre bloc:

The screenshot shows the Podomatic website interface. At the top, there is a navigation bar with the Podomatic logo and the text "Create, Find, Share Podcasts!". To the right, there are links for "Welcome, pepcanas", "Mail", "My Account", "Log Out", "Forums", and "Help". Below this is a search bar. The main navigation menu includes "Home", "Podcasts", "Community", and "My Podcast". Under "My Podcast", there are links for "My Podcast Page", "Post an Episode", "Statistics", "Preferences", "My Media", and "Tips". Below the navigation menu, there are links for "Get the Word Out", "Embedded Player & Badge", "Manage Address Book", and "Directories".

The "Embed Podcast" section is titled "Embed Podcast" and contains a "Working Example" section. This section shows a preview of a podcast player for "Josep's podcast" with a play button and a "COMMENTS" section. Below the player, there is a "1. Primera prova" section and a "GET NEW EPISODES" section with an "Enter email address" input field. At the bottom of the player, there is a "GET THIS PLAYER" button and the Podomatic logo.

To the right of the "Working Example" section, there are three code snippets for embedding the podcast player and badge. The first snippet is for embedding the player on a podcast, profile, or blog, with the code: `<object width="320" height="315"><param name="mo`. The second snippet is for embedding the player on a MySpace page, with the code: `<param name="movie" value="http://www.podOmatic.`. The third snippet is for embedding a badge, with the code: `<a href="http://pepcanas.podOmatic.com/?badge=1":`. The first code snippet is circled in red.

Ja coneixeu el procediment per afegir-lo al bloc.

Com a qualsevol d'aquests aplicatius Web 2.0 és possible personalitzar la interfície i l'aspecte del nostre propi espai:
