## DESCOMPRIMIR UN ISO

- Descarregar el fitxer iso de la pàgina de Clonezilla.
- Descarregar el programa **Universal-USB-Installer-1.8.5.2.exe**
- Descomprimir la iso amb el programa a la unitat USB.
- En descomprimir-se es com un cd AUTOARRENCABLE
- Pots esborrar la ISO si és a l'USB.
- Recorda que cal modificar la BIOS per arrencar des d'USB. Es pot posar en castellà.

## UTILITZAR L'ISO DIRECTAMENT

- CREA LA CARPETA ISOs
- Col·loca-hi els isos a triar: Clonezilla, Hiren's
- Utilitza YUMI-0.0.1.9.exe un cop per iso a triar
- Et crearà un menú per iniciar la clonació. Aquest mètode dóna alguns problemes a windows 7 x 64
