

Investigation about recycling at school

At the classroom

- Is there a paper bin in each classroom?
- Is paper mixing with plastic or other waste?
- Who is the responsible to take the waste to the street bank?
- How often?

Common places

- Locate the zone where we can find waste bins:
- What kind of waste can we throw?
- Who is the responsible for emptying?
- How often?

At the kitchen

- Is there an organic bin?
- Who is the responsible for emptying?
- How much food is thrown everyday (kg)?

Write the different waste we throw at school

CONCLUSIONS
