

## PAPER FOLDING

You will need: square pieces of paper. Stencils of different shapes would be useful.

### Refresher

1 Fold your square into quarters each time.

2 Make these patterns by folding and cutting. Mark the lines of symmetry with a pen. Stick the patterns in your exercise book.

### Practice

1 Fold the square or circle into quarters each time.

2 Find ways to make these patterns. Mark the lines of symmetry with a pen. Stick the patterns in your exercise book.

3 Design two more patterns of your own. Mark the lines of symmetry and stick them into your exercise book.
